- Ticket Sale Clarification for Commencement and Banquet
- Grad Photos answered – students book online to take the pictures at school and then they buy the pictures online through the photographer's website

Question:

Pilot monitoring- STUDENT AWARE

The project was started by 3 other High Schools that have Student Aware software. This came from VTRA training and how students to access some at risk behavior. They monitor items like school violence and self-harm. If students start to explore these items using the Wi-Fi in our building, we monitor and are made aware of this. This is only when students are logged in using their ECSD credentials.

Were parents involved in implementing this software? Parent Question

Parent comment regarding parents wanting to be engaged in decisions such as this

11. Meeting Adjourned at 8:09pm
